OBSERVATION INFORMATION

| Species | Date(s) Observed | Spawning | Rearing | Migration | Anadromous |
|-------------|------------------|----------|-------------------------------------|-----------|-------------------------------------|
| <u>Coho</u> | <u>10/3/98</u> | | <input checked="" type="checkbox"/> | | <input checked="" type="checkbox"/> |
| | | | | | |
| | | | | | |
| | | | | | |

IMPORTANT: Provide all supporting documentation that this water body is important for the spawning, rearing or migration of anadromous fish, including: number of fish and life stages observed; sampling methods, sampling duration and area sampled; copies of field notes; etc. Attach a copy of a map showing location of mouth and observed upper extent of each species, as well as any other information such as: specific stream reaches observed as spawning or rearing habitat; locations, types, and heights of any barriers; etc.

Comments: 2 minnow traps set, one near mouth approx 200 meters up: 5 coho caught.
traps set near powerline cut - no fish. 1-3 ft wide, rocks & sand,
medium gradient, no obvious barriers - though gets quite small
near powerline cut

Note: Not on FS surveyed stream map

Name of Observer (please print) Peter Branson FOW Tech III, Dianne Cassidy volunteer

Date: 10/6/98 Signature: P. Branson

Address: P.O. Box 2073
Corangell, AK 99529

This certifies that in my best professional judgement and belief the above information is evidence that this waterbody should be included in or deleted from the Catalog of Waters Important for Spawning, Rearing or Migration of Anadromous Fishes per AS 16.05.870.
